

Dear Members,

We have made some changes in the fill out form. Now you can fill out your country of residence, city or village of residence and choose your Nepal District at the same form so that you don't need to fill out twice.

Now you can search a person and you will find her/him and know her/his current country of residence, city and Nepal district at the same table.

Thank you for your cooperation.

Cheers,
NepaliCount.com Team
